

WHAT WE DO

Gift-Acrylic Fabrication, Inc. is a custom fabricator of flat sheet, rod and tubing. Materials fabricated are: Acrylic, High Impact Acrylic, Lexan, Styrene, ABS, HDPE, and special order plastics. Wholesale or retail, from building prototypes to large quantity manufacturing, we are equipped to serve your plastic needs. Some of our processes are heat bending and forming, plastic glueing and welding, cutting and machining. Our customer base consists of: museums suppliers, large and small retail outlets, sign and glass companies, office suppliers, etc. Need a product made of Acrylic and/or other plastic ? Let us know, we can help.

QUALITY CONTROL

Each project is visually inspected to ensure the highest quality part. Our staff includes quality control personnel that examines each unit prior to packaging and delivery. If defects are located in a project, the defects are repaired to satisfaction or the project is re-fabricated. It is Gift-Acrylics' policy to ensure quality fabrication and customer satisfaction. It is our responsibility to deliver top quality product, **GUARANTEED!**

SERVICE

Our job is to make your plastic fabrication experience as easy as possible. Call our experienced design and sales staff, we are ready to assist in determining the best methods and materials necessary to complete your project. Several of our customers require a blind drop shipment from our warehouse directly to their customer. We also ship to various locations across the U.S., steadily stocking each locations inventory. Rush orders are filled so that you can get the job completed on schedule. Whatever the need may be, Gift Acrylic will get the job done in an efficient, timely manner. Call, fax or e-mail us for a fast, free estimate and delivery date.
